

## acoustic panel round 110 datasheet

Round acoustic panel with a diameter of 110 cm to mount directly on the ceiling or suspend using wire cable (maximum of 200 cm).

The polyester fleece panel (with exchangeable stretch material) offers excellent sound absorption qualities that significantly reduce reverberation time in the room, thus improving the acoustics there. Creating a new visual layer also makes it possible to give the room a different look without having to resort to a suspended ceiling.

ceiling mounting

dimensions in mm

### technical data acoustic panel round 110

properties	material	polyester fleece, aluminium, steel painted
	degree of absorption panel	0.85 $\alpha$
	height setting panel	max. 2000 mm (can be adjusted during fitting)
	weight panel	4.5 kg
surface	panel	white
	wire suspension	matt white, matt black
