Sicherheitshinweise

Lesen Sie die Montage-/Gebrauchsanweisung sorgfältig durch, bevor Sie die Leuchte installieren. Beachten Sie die Sicherheitshinweise in dieser Anleitung genau und bewahren Sie die Anleitung auf.

Dieses Zeichen macht Sie auf eine gefährliche Situation aufmerksam, die eine schwere Verletzung oder den Tod nach sich ziehen kann, wenn sie nicht beachtet wird. Es macht Sie zudem auf mögliche Sachschäden und andere wichtige Informationen in Verbindung mit diesem Produkt aufmerksam.

Die Montage von Elektrokomponenten darf nur von qualifiziertem Fachpersonal durchgeführt werden. Reparaturarbeiten dürfen nur von autorisiertem Fachpersonal oder dem Hersteller durchgeführt werden. Vor allen Arbeiten am Strahler (Installation, Leuchtmittelwechsel, Reinigung etc.) diesen unbedingt vom Stromnetz trennen.

Dieses Zeichen macht Sie auf Situationen aufmerksam, bei denen Sie direkt in das Licht der LED blicken könnten. Dies kann zu Nachbildern und bei längerer Dauer zu Schädigungen der Augen führen.

Sicherheitsabstand zu brennbaren Objekten einhalten: 20 cm!

Dieses Zeichen macht Sie auf heiße Oberflächen aufmerksam, deren Berührung Verbrennungen zur Folge haben können.

Achtung: Die Oberfläche des Strahlers kann nach längerer Betriebsdauer heiß sein! Vor allen Arbeiten am Strahler (Montage des Strahlers, Wechsel des Leuchtmittels, Wechsel der Inserts, usw.), Strahler immer ausschalten und mindestens 30 Minuten abkühlen lassen. Nur zur Installation außerhalb des Handbereichs vorgesehen.

Produktbeschreibung

Più alto 3d

LED Wand- / Deckenstrahler mit einseitigem Lichtaustritt. Wahlweise mit Linsenoptik oder flachem cone Glas mit innenliegender Linse (Version R).

Frei beweglich durch Occhio 3d-Kinematik mit zwei im Winkel von 45° zueinander stehenden Drehachsen. Lichtwirkung durch optionale inserts jederzeit über einen einfachen Mechanismus veränderbar, dichroitische Farbfilter zusätzlich einsetzbar, VOLT light engine wechselbar.

Weitere Versionen: Più piano und piano in (Einbaustrahler), Più alto (Aufbaustrahler mit integriertem Gelenk, 52° schwenkbar).

Version Più alto 3d

Version für Aufputzmontage, Anschluss an 230 V ~ Netzspannung. Dimmbar via Phasenabschnittdimmer*.

Version Più alto 3d track

Anschluss an 230 V ~ Netzspannung. Dimmbar via Phasenabschnittdimmer*.

Installation Più alto 3d

230 V AC
Netzanschlussleitung

Enden des Netzkabels auf 40 mm ablängen. Die Kabelenden 10 mm abisolieren.

Montageplatte über den Stromauslass an Wand / Decke setzen und so drehen, dass die Langlöcher die gewünschte Ausrichtung haben. Positionen der Bohrlöcher anzeichnen.

Zwei Löcher $\varnothing$ 6 mm bohren, Dübel bündig einsetzen und Montageplatte anschrauben (Schrauben und Dübel sind im Lieferumfang enthalten).

Kabelenden der Netzleitung nach Schema mithilfe einer Spitzzange an die Klemmen der Montageplatte anschließen.

Die Klemmen verfügen über jeweils drei Klemmplätze, die eine Durchverdrahtung ermöglichen.

Zur Vereinfachung der Montage, Leuchte mit der beiliegenden langen Schraube befestigen.

Schraube dazu mit der Hand bis zum Anschlag eindrehen und Leuchte zur Seite schwenken.

Achtung!

Vor der Montage alle stromführenden Leitungen vom Stromnetz trennen und auf den Verlauf von Stromleitungen achten!

Installation Più alto 3d

Kabelenden der Leuchte nach Schema an die Klemmen anschließen.

Kabel in die Aussparung der Montageplatte legen.

Lange Schraube wieder entfernen.

Leuchtenkörper mit mitgelieferten Schrauben (Inbus) auf beide Abstandshalter der Montageplatte schrauben.

Dabei darauf achten, dass die Rastnasen des Leuchtenkörpers (siehe Detail) bündig auf den Abstandshaltern aufliegen und das Kabel nicht eingeklemmt wird.

Klick!

Cover vorsichtig über den Leuchtenarm führen und durch Rechtsdrehung arretieren.

Schutzfolie vom Cover entfernen.

Der Strahler ist nun fertig montiert.

Mit dem Occhio 3d Gelenk lässt sich der Strahler in beliebige Richtung bewegen.

Beide Gelenke verfügen über einen Anschlag.

Achtung!

Die Oberfläche des Strahlers kann im Dauerbetrieb heiß werden.

Installation Più alto 3d track

Für 3-Phasen Stromschiene.

Installation Più alto 3d track

Installation Più alto 3d track

Gewünschte Phase einstellen.

Eutrac-Schienen: beide Stifte wie abgebildet eindrücken

Strahler an der gewünschten Stelle in die Schiene einsetzen.

Strahler weiterhin festhalten!

Achtung!
Vor der Montage alle stromführenden Leitungen vom Stromnetz trennen!

Beide Arretierungshebel eindrücken bis diese hörbar einrasten und parallel zur Schiene anliegen.

Der Strahler ist nun fertig montiert.

Achtung!
Die Oberfläche des Strahlers kann im Dauerbetrieb heiß werden.

Anhang

Pflegehinweise

Leuchte nur in abgekühltem Zustand reinigen!

Zur Reinigung der Leuchte ein trockenes Mikrofasertuch oder das Occhio Reinigungsmittel verwenden.

Safety precautions

Read through the mounting/ use instructions carefully before installing the luminaire. Follow the safety precautions in these instructions closely and keep the instructions in a safe place.

This symbol warns you of a dangerous situation which could lead to serious injury or even death if the instructions are not observed. It also draws your attention to possible material damage and provides other important information in connection with this product.

The assembly and installation of electrical components must be carried out only by qualified personnel. Repairs must be carried out only by authorised, qualified personnel or the manufacturer. Before performing any work on the spotlight (installation, changing the light source, cleaning, etc.), it must be disconnected from the mains supply.

This symbol draws your attention to situations in which you could look directly into the light of the LED. This may cause an after-image effect and may result in damage to the eyes if you look at the light directly for prolonged periods.

Maintain the minimum safety distance from flammable materials: 20 cm.

This symbol warns you of hot surfaces, which could cause burns if touched.

Caution: When used for prolonged periods, the surface of the spotlight can become hot. Before performing any work on the spotlight (fitting the spotlight, changing the light source or insert, etc.), always switch the spotlight off and let it cool for at least 30 minutes. Only for installing in a position which is out of arm's reach.

Product description

Più alto 3d

LED wall / ceiling spotlight with single-sided light output. Optionally available with lens optics (Più) or flat cone glass with internal lens (Più R).

Movable in any direction thanks to Occhio 3D kinematics with two pivots set at an angle of 45° to each other. Using a simple mechanism, the lighting effect can be changed at any time through the use of optional inserts, dichroitic colour filter can be additionally inserted, VOLT light engine replaceable.

Other versions: Più piano and piano in (recessed spotlight), Più alto (surface-mounted spotlight with integrated joint, pivotable by 52°). Surface-mounted spotlight also available as a track-mounted spotlight.

Version Più alto 3d

Version for mounting on plaster surfaces, connection to 230 V ~ mains voltage. Dimmable via trailing-edge phase-cut dimmer*.

Version Più alto 3d track

Connection to 230 V ~ mains voltage. Dimmable via trailing-edge phase-cut dimmer*.

* For a list of compatible dimmers, see www.occhio.com/dim_en

Installation Più alto 3d

Mains cable
230 V AC

Mounting plate with
connecting terminals

Screws

Allen screws

cover

head

Installation Più alto 3d

230V AC
mains cable

Cut the mains cable to a length of 40 mm. Strip 10 mm of insulation from the cable ends.

Place the mounting plate over the power outlet and against the wall/ceiling, and turn it until the elongated holes are aligned as required. Mark the positions where the holes are to be drilled.

Drill two 6 mm diameter holes, push in the rawlplugs so that they lie flush and screw on the mounting plate (screws and rawlplugs are included in the scope of delivery).

Using long-nosed pliers, connect the cable ends of the mains cable to the terminals of the mounting plate according to the diagram.

The terminals each have three clamping spaces which allow through-wiring.

To simplify mounting, fasten the lamp with the long screw provided.

To do this, turn in the screw as far as it will go by hand and swing the lamp to the side.

Caution!

Before fitting, disconnect all current-carrying lines from the mains supply and check the routing of the power cables!

Installation Più alto 3d

Connect the cable ends of the lamp to the terminals according to the diagram.

Lay the cable into the recess in the mounting plate.

Remove the long screw.

Screw the luminaire body onto the two spacers of the mounting plate using the screws (allen) provided.

When doing so, ensure that the snap tabs on the luminaire body (see detail) rest flush on the spacers and that the cable is not trapped.

Click!

Lock the cover in place by turning it to the right.

Remove the protective film from the cover.

The luminaire is now fully mounted.

Thanks to the Occhio 3d joint, the spotlight can be moved in any direction.

Both joints have a stop.

Caution!
When used in continuous operation, the surface of the spotlight can become hot.

Installation Più alto 3d track

For 3-phase bus-bar.

Installation Più alto 3d track

3-phase
track-adapter

head

Installation Più alto 3d track

Adjust the desired phase.

Eutrac rails: press in both pins as shown

Fit the spotlight into the track at the desired position.

Continue to hold the spotlight firmly.

Caution!
Before fitting, disconnect all current-carrying lines from the mains supply.

Press both locking levers till they snap audibly into place and fit parallel with the top of the rail.

The spotlight is now fully mounted.

Caution!
When used in continuous operation, the surface of the spotlight can become hot.

Appendix

Care instructions

Always allow the luminaire to cool down before cleaning.

To clean the luminaire, use a dry microfibre cloth or the Occhio cleaning agent.
