Coro | Coro moon spider

Design recommendations for selected table sizes

Coro | Coro moon spider

Predefined model variants

Occhio

The arrangements of the Coro | Coro moon spider are series variants available in DOS with pre-planned arrangements for the scenarios shown.

The positions of the heads and the specified suspension lengths are design recommendations for optimal staging in the application.

The positions of the cable suspensions and the total cable length per head (horizontal cable length plus suspension length) are specified in the respective installation instructions.

The suspension lengths specified below refer to a room height of 260 cm for the spider 6/9 and 280 cm for the spider 12/18

Coro | Coro moon spider 6

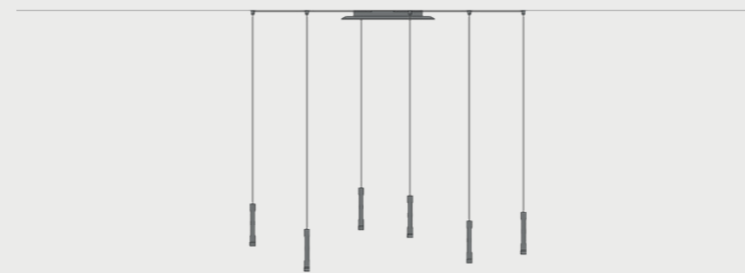

table L 180 - 220 cm | W 90 - 100 cm | H 75 cm
room height 240 - 280 cm

Coro | Coro moon spider 9

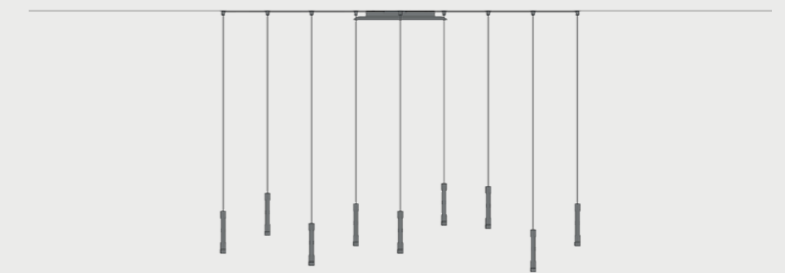

table L 220 - 260 cm | W 100 cm | H 75 cm
room height 240 - 280 cm

Coro | Coro moon spider 12

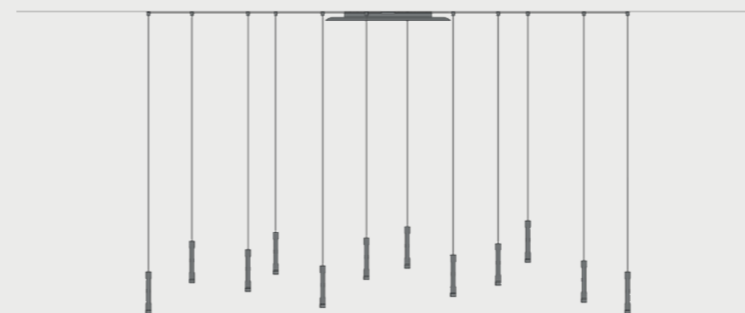

table L 280 - 320 cm | W 110 cm | H 75 cm
room height 280 - 320 cm

Coro | Coro moon spider 18

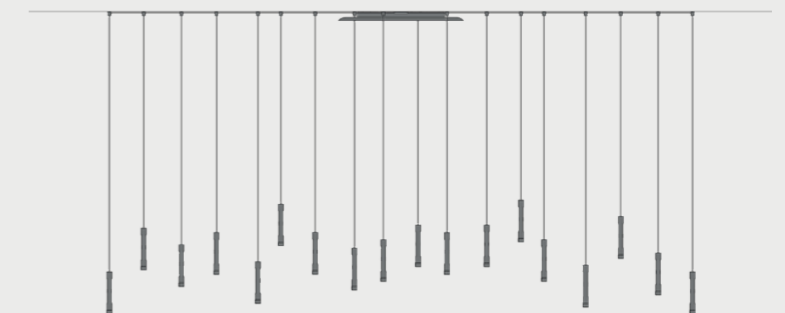

table L 330 - 370 cm | W 110 cm | H 75 cm
room height 280 - 320 cm

Coro | Coro moon spider

Special lengths and free planning

Special lengths

The pendant length can be adjusted up to a total cable length of 10 m (max. pendant length from the ceiling to the head approx. 8.5 m). The prerequisite for the special length is that all head positions remain unchanged, apart from the pendant length. The luminaire arrangement (proportion) remains the same.

The 10 m result from the cable on the ceiling (from the canopy to the cable suspension) and the pendant length (from the ceiling to the upper edge of the head). There is a surcharge of €50 (including VAT) per head for the special length. The price for the special length always applies to all heads.

All lengths that deviate from the predefined model variants (shorter or longer) are considered special lengths.

Free planning

For deviating situations that cannot be represented with predefined model variants or special lengths, and for which a free arrangement of the heads is to be implemented, we offer personalized planning. This includes an exclusive initial draft and individual customization.

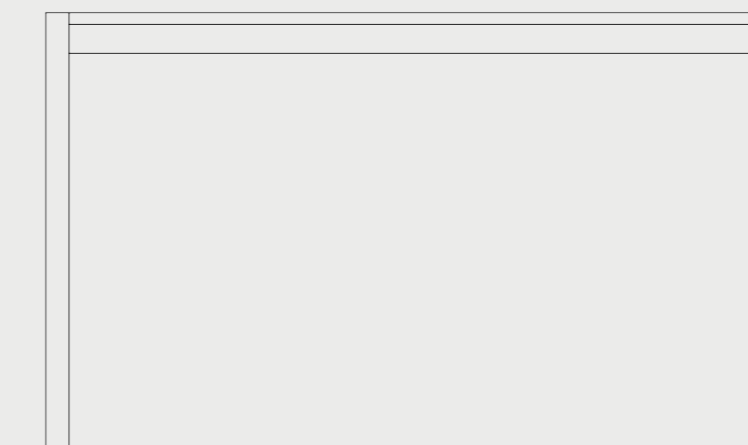

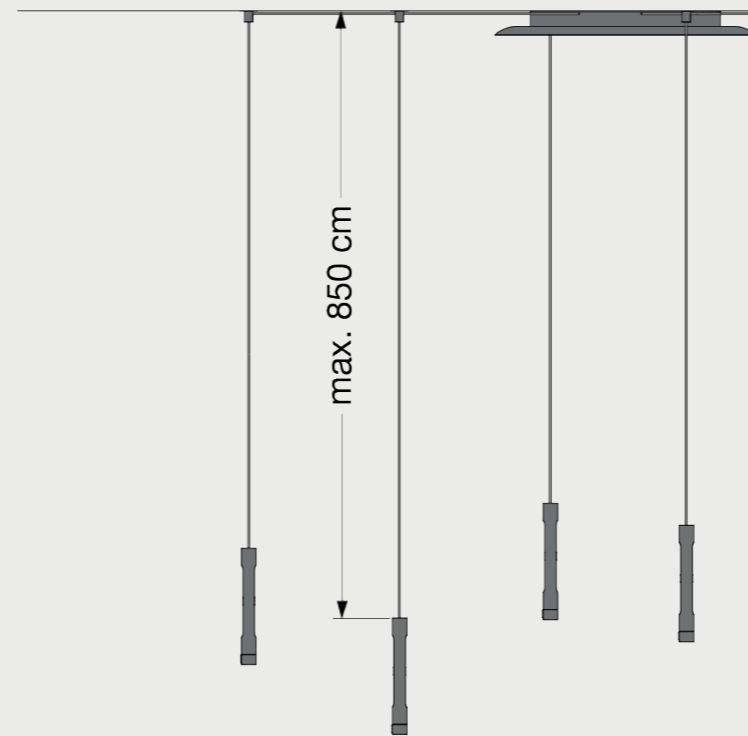

The luminaire price includes the price for the special length (+€50 per head).

The planning service must be commissioned before ordering. Personalized planning spider 6-9: €250 Personalized planning spider 12-18: €400

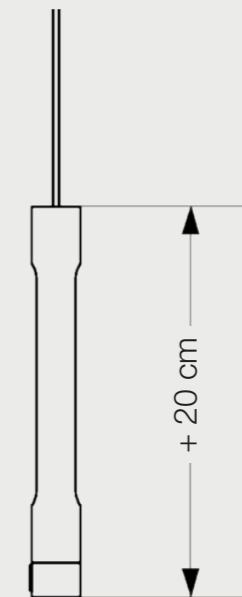

Special lengths and free planning can be requested using the order form in the partner portal.

All cable lengths are specified excluding the length of the heads
