

Occhio

The Art of Reflection – Occhio presents the world premiere of Era on an opulent stage

Milan Design Week, April 2026

At Milan Design Week 2026, the Munich-based design company presents a world premiere at the Occhio store on Corso Monforte under the title *The Art of Reflection*: at the center is the Era luminaire series, which unites the highest level of craftsmanship with captivating light.

Defined by a solid glass body, precisely crafted from a single block and polished to maximum brilliance, Era makes a striking statement. Combined with the finest leather, it creates a distinctive, iconic style.

The series is available in two versions – Era and Era lusso with shimmering mesh – as well as in different sizes and expressive silhouettes. The mobile luminaires can be controlled magically with a gesture and, thanks to Occhio fireball technology, create a warm, atmospheric lighting mood.

Era is staged on an opulent platform draped in green velvet – like a precious jewel. The presentation of Era was designed by set and interior designer Giulia Tagliatela, while the textiles were curated by the exclusive label Schumacher in cooperation with Occhio. The overall setting is complemented by furniture by Antonelli.

Further highlights

The exhibition is complemented by the new Coro series, which opens up entirely new possibilities in lighting design with its minimalist design language and innovative Occhio fireball technology. A dynamic, three-dimensional installation impressively demonstrates the versatility of the luminaires and spotlights.

With *colors by Occhio – made for You*, the company also presents its Capsule Collection, expanding the possibilities of interior design with expressive worlds of color. In addition, the new dark chrome finish adds further accents: deep, high-gloss and timelessly elegant.

With these innovations, Occhio underlines its ambition to create holistic lighting solutions that shape spaces, create atmosphere, bring architecture to life and enhance people's well-being – thereby conveying its vision of a new culture of light.

Occhio – the company

Occhio stands for a new culture of light that places people at its center.

Founded in 1999 by designer and entrepreneur Axel Meise, Occhio unites the highest standards of design, unique quality of light and innovative operation in a comprehensive product portfolio for holistic lighting solutions at the highest level.

Occhio

Today, Occhio is one of the most innovative companies in the European premium segment and has developed from a German design icon into an internationally established luxury brand. Based in Munich and employing over 250 people, the company has a global presence with a strong focus on Europe – with its own flagship stores in cities such as Berlin, Munich, and Milan, as well as a strong network of more than 400 lighting and furnishing retail partners.
