THE ART OF REFLECTION

The cordless Era luminaire combines masterful craftsmanship with captivating light. The series embodies the highest standards of design and materiality and delights with magical 'joy of use' thanks to »touchless control«.

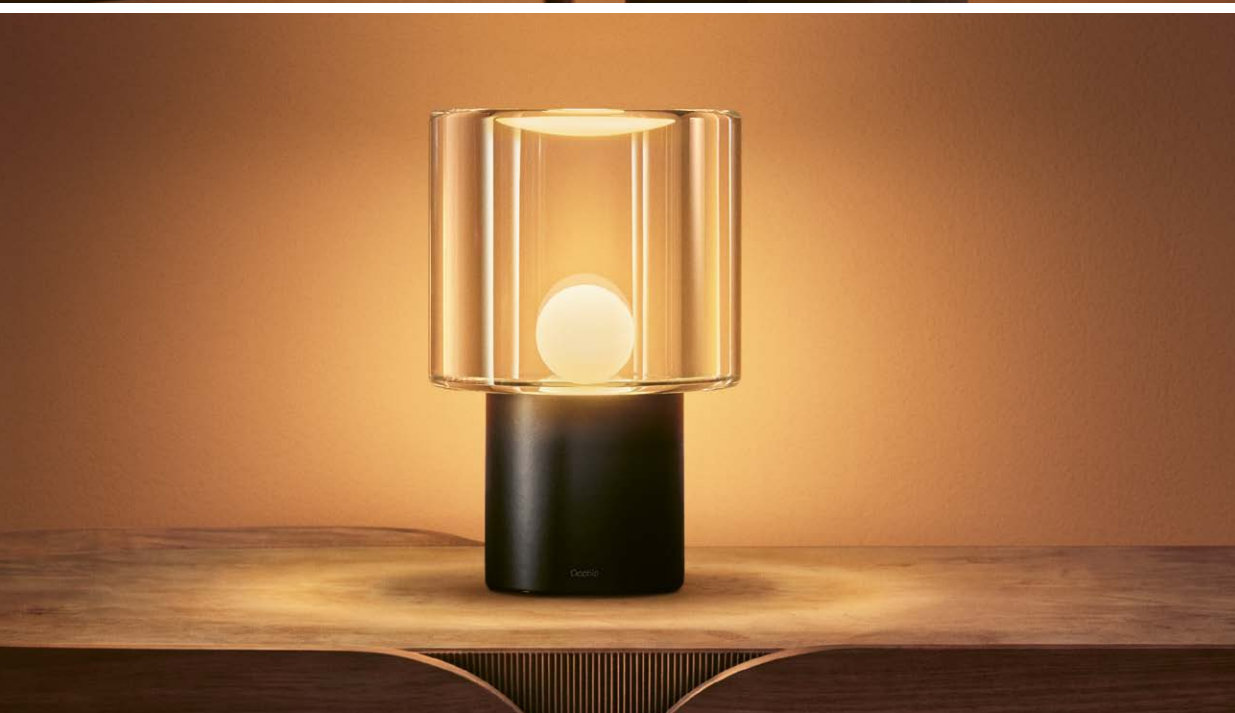

Era

In a class of its own

Era unites masterful craftsmanship with captivating light. The solid glass body is milled from a single block and polished to exceptional brilliance. Combined with the finest leather, Era reveals its iconic style. Available in two sizes and two distinctive silhouettes, Era embodies the highest standards of aesthetics and quality of material.

At the heart of Era, the captivating Occhio fireball radiates light onto a gently curved, satin-finished reflector. The light is softly reflected back, creating a distinctive lighting atmosphere: always glarefree, with outstanding light quality and an adjustable color temperature ranging from invigorating cool tones to warm, candle-like light.

Era lusso

Mysterious elegance

Era lusso – a shimmering, finely textured mesh envelops the Occhio fireball, lending the light its magical glow. In bronze or rose gold, combined with refined leather in marrone or rosso, Era becomes a sensual lighting object of remarkable expressive power.

Era & Era lusso Features

Occhio fireball

The Occhio fireball creates soft, directed light – both atmospheric and glare-free. It directs the light onto a gently curved, satin-finished reflector shade. It softly reflects the light, creating a unique lighting atmosphere.

»air sync«

Thanks to »air sync«, multiple luminaires can be easily connected and controlled in sync via gesture or the Occhio app.

»touchless control«

With gesture control Occhio luminaires can be controlled touchless via sensors. You can switch the light on and off, dim it and adjust it intuitively to suit your mood.

movability

Era shines without a cable. The integrated battery gives you the freedom to place the luminaire wherever you wish: at the dining table, on the sideboard or on the terrace. At maximum brightness, a single charge lasts up to eight hours.

»color tune«

With a magical gesture the colour temperature can be adapted via »color tune« to suit the moment – from warm light tones for relaxing evenings to stimulating, cool working light. The »x-tra warm« color temperature range (2200–3500 K) invites you to enjoy moments full of warmth and comfort.

Occhio ONE

Set the atmosphere of your rooms with a single touch. Whether switching, dimming or creating entire scenes and groups – the Occhio app and the Occhio gateway offer individual design options, which can be changed any time.
