LIGHT MY SOUL

Inspiration is everywhere.  
Memories. Ideas. Dreams.  
My story. A melody. A spectrum.  
A scent on the wind.  
When the world grows quiet,  
creativity begins to flow – and  
light gives it form.

Samira Mahboub is a model and entrepreneur. In her everyday life, she reveals the special power of a creative soul. The light of Luna gives her moments of peace and inspiration – and makes visible what she feels.

Luna cloud 3  
Luna basso

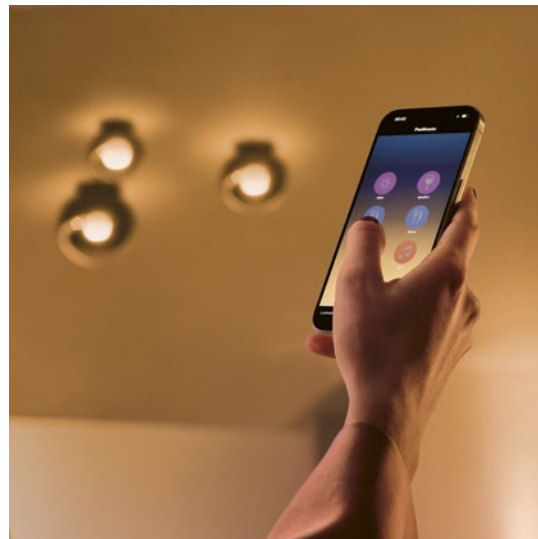

Luna cloud 3

**Luna sospeso** transforms any room into a place of beauty. The Occhio fireball hovers inside the glass sphere like a celestial body. The revolutionary light source creates soft, directed light – powerful yet glare-free.

All it takes is an intuitive gesture to switch Luna sospeso on or off, dim it or change the color temperature. With Luna cloud the luminaires can even be synchronised.

**Luna piena** – a sensual beauty with a radiant presence, creating soft, directed light for a unique atmosphere.

Thanks to Occhio air Bluetooth control, you can adjust the light color and intensity at any time via app or controller.

Luna scura 125 / 160 / 200  
Luna pura

**Luna scura** reflects light onto the wall in a mysterious way. The light source appears to float within the mirrored sphere. Whether as a single highlight or in a group, Luna scura impressively stages any wall setting.

Thanks to »color tune«, the color temperature of Luna can be adjusted via the Occhio air app or Occhio controller – from pleasantly warm to stimulatingly cool.

Luna scura 125 / 160 / 200

**Luna parete** fascinates without many words: its beauty touches the senses, its light breathes magic into any space.

The Luna parete wall luminaire transforms any wall into a work of art. With its soft light, it creates a warm, sensual atmosphere.

Luna sogno

Luna cloud 3  
Luna basso

The **Luna sogno** and **Luna basso** table luminaires are filled with magic. Thanks to the elegant mirrored coating of the glass sphere, they gently cast light downward (Luna sogno) or upward into the room (Luna basso). The luminaires respond to intuitive gestures – making wishes come true.

With »x-tra warm«, you can optionally select a warmer color temperature ranging from 2200 to 3500 Kelvin. Perfect for those who wish to give their home an especially inviting and atmospheric ambience – with the highest light quality.

Luna basso  
Luna sogno

**Luna pura**, the first wireless luminaire by Occhio, brings the magical power of Luna to any place – so you can experience it anywhere. Thanks to Occhio fireball technology and »color tune«, unique lighting moods can be created – with Occhio air, you can even control multiple luminaires in sync.

The light of the fascinating Occhio fireball in the centre of the mirror-topped glass sphere is gently reflected and creates a wonderful, soft gradient of light.

A close-up photograph of a person's hand, adorned with a ring, adjusting a modern, spherical pendant light. The light fixture consists of a polished, reflective sphere with a glowing circular light source inside. The hand is reaching up to touch the vertical rod that supports the sphere. In the background, several other similar light fixtures are visible, creating a warm, ambient glow. The person's arm is wearing a colorful, patterned sleeve. The overall scene is set against a dark, textured background, emphasizing the sleek design of the lighting fixture.

Light, design and technology merge into an unprecedented experience. With the unique features of Luna, you can orchestrate the light and become the creator of your living space.

# Luna Features

## Occhio air

Adjust the ambience of your rooms with just a touch. Whether switching on or off, dimming, fading, or creating whole lighting scenes and groups – Occhio air allows you to customise your atmosphere and change it at any time.

## Occhio fireball

The Occhio fireball creates soft, directed light – powerful yet glare-free at the same time. Thanks to the innovative Occhio fireball technology, light can be experienced in its highest quality and versatility.

## Height adjustment

With the optional height adjustment, the suspension length of pendant luminaires can be changed with a simple, gentle hand pull. The cables seamlessly disappear into the canopy.

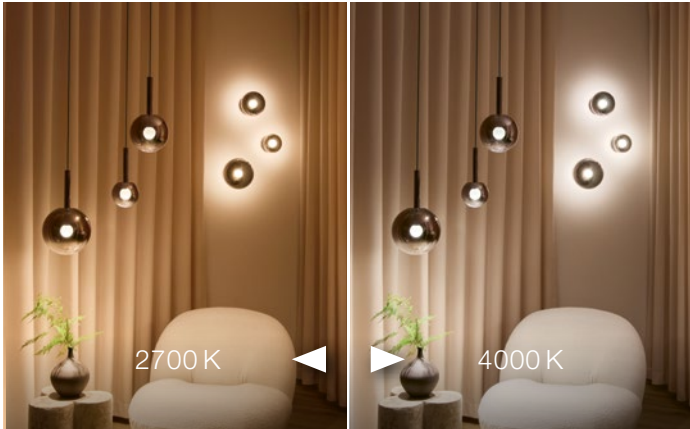

## »touchless control«

New technology creates new freedom: with a simple gesture, the light can be switched on or off, dimmed, or its color adjusted – entire groups of luminaires respond in sync when one is operated.

## »color tune«

Via gesture control or Occhio air, you can use »color tune« to decide which color temperature is best suited to the current situation – from warm color temperatures for relaxed evening hours to stimulating, cool daylight.

## »x-tra warm«

With »x-tra warm«, you can optionally select a warmer light color ranging from 2200 to 3500 Kelvin. Perfect for those who want to give their home an especially inviting and atmospheric ambience – with the highest light quality.
